In order to protect the interests of the clients in our program, a police and reference check on every volunteer is essential. Authorization for such an inquiry is necessary before this application can be completed. We ask that you disclose if you have ever been charged with or convicted of a crime, which does not necessarily exclude you from becoming a CASA volunteer. However, national standards do not permit volunteers who have been charged or convicted with a child-related crime to participate in the program.

Signing below authorizes this check and confirms that to the best of your knowledge, information contained in this completed application is true. Any checks or inquiries will be kept in strict confidence.

“I authorize inquiry with regard to my character, ability and habits from any and all persons and agree to hold such persons harmless with respect to any information they may give. I further authorize a complete police and reference check. I understand that if I falsify any information contained within this application or during the course of my work with CASA, I may be subject to dismissal.”
